The DCS-934L Day & Night Wi-Fi Camera is a complete surveillance solution for your home or small office. The built-in night vision gives you 24 hour surveillance complete with motion and sound detection. It's mydlink enabled too, so you can check on your camera anytime, anywhere from any PC, tablet, or mobile phone.

## Peace Of Mind With 24/7 Monitoring Of Any Environment

The DCS-934L is a standalone surveillance camera that requires no special hardware or software, and can run independently even without a PC. Send e-mail notifications with snapshots whenever motion or sound is detected using just the DCS-934L and an Internet connection. You can customize areas of the video to monitor for motion to keep watch over entryways, and you can set volume limits to detect when a loud sound is picked up by the camera. Night time monitoring is possible with the built-in infrared LEDs which allow for night time viewing of up to 5 meters, enabling round-the-clock monitoring of a home or small office.

## Instant Anywhere Access With mydlink Cloud Service

Enhanced with mydlink™ support, the DCS-934L makes it easier and more convenient for you to look after your family and home or office environment. With a mydlink service enabled camera, you can stay connected to everything you love from anywhere, anytime. Access your camera through the mydlink website or the mydlink mobile app that lets you view and manage your camera through your tablet or mobile phone, no matter where you are.

## Create a Comprehensive Surveillance System

Included with the DCS-934L is the D-ViewCam software, which adds enhanced features and functionality that helps you create a full surveillance system. D-ViewCam enables centralized management of multiple network cameras, supporting up to 32 network cameras and up to 64 users. With a dedicated computer it offers digital monitoring and recording with a wide array of features, including scheduled, motion and manual recording options for individual needs.
